### CAREER OBJECTIVES

There are many aspects within the architectural profession that are of interest to me. **Design, creativity** and **conceptualization** enthral me for hours on end. Having said that after having experience working on **design proposals, award submissions** and **client specific material**, the **business** and **marketing** aspect of architecture also interests me. The idea of being able to sell “**The Invisible Product**” and convince a client that your company and your skills as an architect are worth investing in, excites me!

Ideally I would like to practice these two parts of the profession. Working towards becoming a **registered architect** and also being able to **promote the company** I work for, giving it a professional and coherent appearance to clients through myself and the material I produce.

### SKILLS

My skills include creative direction + concept development, sales and marketing directives, client communication, strong design and detailing capabilities, ability to adhere to strict deadlines, dedicated work ethic, and a driven desire to learn and develop professionally.

I am both MAC and PC literate, having competent knowledge of professional software such as:

#### Adobe Suite...

Photoshop - 7  
Adobe Illustrator - 8  
Adobe Indesign - 8  
Adobe After Effects - 6  
Adobe Premier Pro - 6

#### 3D + 2D Software...

Revit - 4  
AutoCAD - 7  
Rhino 3D - 7  
Sketchup Pro - 6  
Kerkythea - 6  
Flamingo - 7  
Vray - 6  
DIVA Sun Analysis - 5

#### Model Making...

Laser Cutting - 9  
3D Printing - 7  
Physical Models - 8

### ACHIEVEMENTS

Runner up in the “Mark Richards trust award”  
Representing Ireland in World Sailing Championships  
Ireland's International Sailing Coach  
Captain of the University Rugby Team  
President of the University Surf Society  
Class Representative 5 years consecutively
